

Tender Drafting Set up

Place truck into pump and chock your tires (**both wheel chocks if possible**).

Open your **tank to pump** and crack your **tank fill/re-circ line valve**.

Set up your 10-20 ft drafting hose (checking for your gaskets) to 2 ½ inlet valve (at pump) and attach your barrel strainer.

Set up 1 ¾ in Re-circ line and attach a nozzle.

Ready for drafting

1. Place governor in **RPM mode**.
2. Throttle up to appropriate RPM (**1,000 rpm**).
3. Open 1 ¾ in. Re-circ. line (bail fully open) **30-50 psi**
4. Transition by opening inlet (**D.S auxiliary inlet**) and **close** Tank to Pump and the tank fill/re-circ. line.
5. Pull the primer 30-50 sec. **LOOK, LISTEN, FEEL**.
6. Draft complete. (Water coming in, water going out)
7. **Reassess, Reassess, Reassess**
